# VERSATILE DOCUMENT COMMUNICATIONS FOR ANY OFFICE ENVIRONMENT.

Laser Fax. Network Scanner. Network Printer. Digital Copier. Now it's easier than ever to get the job done with the new Sharp FO-IS125N Document Communication System. This powerful fax-based MFP delivers all the communication features you need—and so much more. Ideal for small offices and workgroups that need responsive, on-demand versatility, the FO-IS125N can send documents to e-mail addresses, network folders and even FTP sites—without being connected to a PC. Easily streamline your paper-based workflow to an efficient and secure process. Sophisticated security features provide the regulatory compliance required for daily business. And with Sharp's long history of award-winning reliability, the FO-IS125N can keep up with the most demanding environments without skipping a beat.

IMPRESSIVE FEATURES FOR MORE PRODUCTIVE WORKGROUPS

Despite its compact tabletop size, the FO-IS125N is big on efficiency. With the ability to send documents to a variety of destinations, the Sharp FO-IS125N delivers total control over how you distribute documents. Sending options are easy so you'll have everything you need to conduct daily transactions without ever leaving the front office. The new FO-IS125N will transform the way you communicate and share information by streamlining tasks and increasing productivity. Plus, you'll reduce time and enjoy significant savings on telephone, postage and courier costs. The Sharp FO-IS125N offers four convenient distribution features:

- **Send to E-mail**
  Quick and ultra-efficient, just place your document in the tray, enter the recipient's address, or use its Global Address Book to look up an e-mail address and hit start. Documents are automatically converted to PDF or TIFF format and sent as an attachment.

- **Send to Network Folders**
  Reduce paperwork and related storage costs by sending documents directly to a network folder. Simplify filing and paper handling for busy front offices in just a few steps.

- **Send to FTP**
  Need to share multiple-page documents that are too big to e-mail? With Send to FTP, you can scan documents up to 30 pages per destination and post to an FTP address.

- **Send to Fax**
  With its plain-paper laser engine and advanced fax functions, the FO-IS125N delivers. The Super G3 modem transmits documents quickly—so your workflow keeps moving.

A LL THE VERSATILITY AND SECURITY YOU NEED... IN A COMPACT, SPACE-SAVING DESIGN

ENHANCED SECURITY FEATURES FOR SENSITIVE ENVIRONMENTS

Ideal for the financial, insurance and healthcare sectors, the FO-IS125N also provides a flexible solution for small-to-mid-sized businesses that require sophisticated security features. Designed with today's sensitive business climate in mind, the FO-IS125N delivers several built-in features that can help keep your transactions compliant with governmental regulations and corporate processes.

- **Authorized Transmission** automates the approval process and delivery of faxes and e-mails. Completely transparent to the user, you can protect your business faxes and e-mails from being sent without authorization—ideal for compliance in virtually any office environment.

- **Secure Fax Release** minimizes the risk of faxed documents being removed from the paper tray. With PIN code authorization required to "release" the fax from memory, you have the control to print when it's convenient for you.

- **Inbound Fax Routing** allows fax receptions to be sent directly to an e-mail address, network folder or FTP site—so you'll never miss an important document. You can also select this feature to maintain an electronic copy for secure document archival.

- **User Authentication** restricts the use of the FO-IS125N and selected functions to authorized users only. Before performing any function, the user is prompted to login, providing greater control over usage.
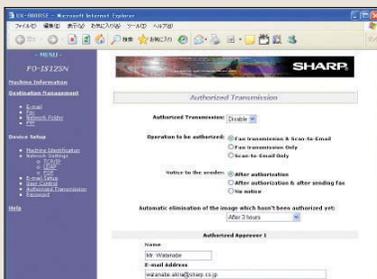

EASY TO OPERATE, EASY TO MANAGE

The FO-IS125N is incredibly easy to operate, so even occasional users can take advantage of increased productivity. The integrated QWERTY keyboard makes it easy to program numbers and addresses. Sophisticated distribution features have been simplified, so you can send documents with the push of a few buttons. Administrative functions can be easily managed through the user-friendly web page right from your desktop. The intuitive interface allows you to set user preferences, configure network settings and manage destinations.

24/7 TRAINING WITH MY SHARP™

Managing all of the advanced features of your Sharp product is simple and easy. Ask your Authorized Sharp Dealer about **My Sharp**. This dedicated customer training website is customized to your Sharp product and allows you to locate resources and find information specific to your configuration, truly helping you maximize your investment.

FO-IS125N AUTHORIZED TRANSMISSION FUNCTION

Recipient's E-mail and Fax
Approver's PC
Sender's PC

❶ E-mail or Fax is initiated from the FO-IS125N, but held in its secure memory until the transmission is approved or rejected.

❷ An e-mail is sent to the specified "Approver" requesting approval to transmit the document.

❸ To approve the transmission, the "Approver" replies (without comment) to the e-mail. To reject the transmission, the approver replies to the e-mail with "Reject" in the subject line.

❹ An e-mail can automatically be sent to the "Requester" notifying them of the approval or rejection of the transmission request.

❺ If the transmission is approved, the FO-IS125N transmits the document. After transmission, the document is deleted from the machine's memory. If the document is rejected, the transmission is automatically deleted from the machine's memory.

Operating the FO-IS125N Workgroup Document Communication System is easy and intuitive. Easily input e-mail addresses and phone numbers with the QWERTY keyboard and numeric keypad.

Integrated administrative software provides sophisticated control, yet is easy to use.

Web-based destination management tool makes it a breeze to add, edit and delete fax numbers, email addressees and folder locations.

Main Specifications

Applicable Telephone Line:	Public-Switched Telephone Network (PSTN)
Compatibility:	ITU-T (CCITT) G3
Compression Scheme:	MH, MR, MMR
Handset:	Standard
Memory Size:	8 MB Standard (approx. 600 pages)[1]
Modem Rate:	33,600 bps with auto fallback[2]
Transmission Mode:	Super G3, G3
Transmission Time:	Approximately 3 seconds per page[2]
Print Speed:	Up to 12 ppm (continuous, letter size)[3]
Scan Resolution:	Standard: 203 x 98 lines per inch Fine: 203 x 196 lines per inch Super-fine: 203 x 391 lines per inch
Halftone:	64 levels
Automatic Contrast:	Standard
Recording System:	Laser
Reception Modes:	Auto / Manual
Effective Scanning Width:	2.75" to 8.2" (70mm to 208mm)
Effective Recording Width:	8.2" (208mm)
Automatic Document Feeder:	Standard - 30 sheets[4] (max. Letter size) 5 sheets (max. Legal size)
Document Size:	Letter / Legal
Paper Tray Capacity:	Approximately 250 sheets[4] Approximately 100 sheets (Legal size at normal temperature and normal humidity)
Output Paper Stack Capacity:	100 sheets (Letter size) 50 sheets (Legal size)

Advanced Fax Functionality

Memory Transmission:	Up to 600 pages[1]
Serial Broadcasting:	50 locations
Rapid Keys:	36 stations
Special Dial Key:	114 stations
Group Dialing:	Max. 36 groups / 50 locations per group
Timer Transmission:	Max. 15 transmissions / 50 locations per transmission
In-Bound Routing:	Standard (E-mail, FTP or Network Folder)
Dial Tone Detection:	Standard
Anti-Junk Function:	Standard (5 Stations)
Automatic Redial:	Standard

Copying

Copy Speed:	Up to 12 cpm[3]
Enlargement / Reduction:	200%, 135%, 125%, 100%, 94%, 88%, 70%
Copy Function:	Single, Multi-copy, Sort-copy (Up to 99 copies)

General Specifications

Power Requirements:	120 V AC, 60 Hz
Power Consumption: Standby:	8.2W when not connected to a network; 8.6W when connected to a network
Maximum:	690W ENERGY STAR® qualified
Operating Environment:	50 - 86° F (10- 30° C) 25 - 85% RH
Dimensions (WxDxH):	16.8" x 16.1" x 8.2"
Weight:	15.6 lbs. (7.1 kg)
